Engine Mechanic (m/f/d)

(13410)

📍 Standort: Hamburg

Your new workplace:

On behalf of our clients – renowned companies in the aviation industry located in Hamburg – we are currently searching for several Engine Mechanics (m/f/d).

Your responsibilities:

- Installation, removal, maintenance, and repair of engines and engine components
- Performing functional tests, troubleshooting, and repairing defective parts and components
- Documenting all work carried out
- Ensuring compliance with quality and safety regulations

Your profile:

- Completed training as an aircraft mechanic or a similar qualification
- Basic knowledge of civil aircraft engines (e.g., Trent, CFM)
- Familiarity with essential aircraft maintenance documentation
- A reliable team player with a precise working style
- Good German and English language skills

What we offer:

- Attractive salary and social benefits, including the Deutschlandticket
- Thorough onboarding and training
- A friendly, modern, and professional working environment
